

What's New in Procore

We released 25 product enhancements from July 2021 - September 2021.
To see the full list of updates, visit procore.com/whats-new.

Accelerate the Change Management Process for T&M Work

Fast track the documentation, verification, and change management of tickets for extra work with new enhancements to T&M Tickets. With additional flexibility, field teams can quickly record information while office teams can easily track progress.

Quickly Add New Workers

With granular permissions, users can "create contacts" from inside a ticket, without an email address.

[Learn More](#)

Additional Configurations for Fieldsets

Hide the "Performed on date" in the General Information Section & the "Employee" Field in the Labor Section.

[Learn More](#)

Remove Change Event Association

Remove the association if a T&M Ticket was added to an existing or created a new Change Event by mistake.

[Learn More](#)

New Email Notification Settings

Set up emails for each step in the workflow: In Progress, Ready for Review, Field Verified, and Closed.
