

## PPE Update

### Safety Department

October 2023

In efforts to continue to put safety first, the following PPE policies are effective immediately. The safety manual will be updated at the annual review to reflect these changes.

#### Gloves

- All Brinkmann direct hire laborers and carpenters are to wear gloves at all times. Brinkmann will provide general duty, A1, A2, or A3 type gloves to our employees for general use. Should a task require other specific gloves that task will be reviewed, and appropriate PPE will be issued.
- All other Brinkmann employees are to wear gloves during task specific activities.
- Recommendations and Contact: St. Louis Safety, 636.537.9111 or local supplier
- Hex Armor: Helix (blue) or MaxiFlex: Cut (green)

#### Hard Hats

- Hard hats are to be worn at all times through TCO and while any overhead activities are taking place.
- Brinkmann Constructors has three types of hard hats that allowed for direct hire employees, Jackson SC-6, MSA V-Guard, or MSA V-Guard full brim. Other hard hats may only be used with approval from the project director and the regional safety manager.
- Contact: Christine Sheer, 636.537.9700

### High Visibility PPE

- All Brinkmann direct hire laborers and carpenters are to wear a Brinkmann issued safety vest or an orange or lime shirt while on site.
- All other Brinkmann employees are to wear a Brinkmann issued safety vest or high visibility coat while on site.
- Contact: T-Shirts - St. Louis Shirt, 636.926.2777
- Contact: Vests – Christine Sheer, 636.537.9700

Please let the safety department know if you have any questions or concerns.
