

2018 - Online Orientation Company Affidavit

Online orientation is an alternative to our standard on site orientation process. By opting into the ANDRES online orientation program, each employee that completes this process will receive a sticker for their hard hat that shows they have completed orientation online for the calendar year written on the sticker. This orientation will be good across ALL ANDRES projects from Jan 1st to Dec 31st of the year written on the sticker. Each employee with this sticker will only need to check in at the project office/trailer to sign in and receive a project identification number sticker.

All signed orientation forms need to be emailed to Safety@andresconstruction.com along with this form filled out and signed by a company officer. Once received, the ANDRES safety team will review for completion and mail hard hat stickers to your main office.

Below, please list the name of each employee that has completed the online orientation video/quiz.

	First Name	Last Name	Date Completed
