How do I share feedback with Procore?

Answer

At Procore, we're always interested in hearing from our customers and learning about how we can improve your user experience. Whether it's related to our product (for example, feature requests, improvements, and so on.) or the Support site (for example, request a new tutorial, FAQ, workflow, and so on.), your honest feedback is always welcomed and appreciated.

Share Product Feedback

Do you have constructive feedback about how we can improve one of Procore's platforms (for example, web, mobile-iOS, mobile-Android, Procore Drive, and so on.) or one of our tools (for example, Submittals, Drawings, RFIs, and so on.)?

Share Support Center Feedback

Do you have an idea of how we can improve Procore's Support Center? Did you not find an article that answers your question? If so, please let us know.

You can leave a helpful comment to the right of a page.
